

What is Michener?

Who we are

Michener Services (including Youngstown Home) is a 24-hour direct care organization supporting 274 individuals with developmental disabilities.

The average age of the people living at Michener is over 50 and at least half require some form of mobility aid such as a wheelchair or walker. Many individuals have lived at Michener for 30 or more years.

Michener Services is accredited through the Creating Excellence Together (CET) standards of the Alberta Council of Disability Services and also maintains certifications from several other health care organizations.

What we do

Each individual living at Michener has access to needed daily living, medical, rehabilitation and health care support as well as a wide range of social, spiritual and recreational opportunities.

Staff members encourage and assist individuals to plan and make decisions about the things that shape the course of their lives and to participate in the widest possible range of life experiences.

Where an individual requires help to make personal decisions, private or public guardians are included in planning and decision making.

Our friends

Individuals at Michener participate in numerous community events and enjoy the companionship of individual and group volunteers who share time and provide opportunities for them to contribute to the broader community.

Homes at the Southfield Division of Michener

Michener Services maintains a strong partnership with the Society of Parents and Friends of Michener Centre, whose members continue to provide a wide range of support to the overall organization.

Michener Services has won six Premier's Awards of Excellence since 1999 in recognition of outstanding projects and programs, plus another two awards as part of PDD Central.

In July 2002, responsibility for Michener Services was transferred to the Persons with Developmental Disabilities (PDD) Central Region Community Board. PDD is governed by the Ministry of Seniors and Community Supports.
